

SchoolPickUp

SchoolPickup.nz SchoolPickUp is an online store, selling a very wide range (currently 10,000 items and growing) of high-quality products. Not only does it have a great selection of products to choose from online but, most importantly, 50% of the profits go straight to Whareama School.

The items available have been carefully chosen to align with the messages we teach our students regarding the environment - respect it and look after it and as a result, where possible, we have sustainably produced, biodegradable, eco-friendly or NZ made products. If that was not possible, other high-quality products have been selected. Whether you are looking for a gift, an item for the home or kitchen or the very best lunchbox you can buy, SchoolPickUp has it all.

The prices are no more expensive than other stores, plus there will be regular specials. As a launch special there is a 15% off coupon available. Go to <https://www.schoolpickup.nz/pages/whareama-school> Just sign up and you will get it instantly.
